Stephenville, TX 76401

ConturaVet is very excited to partner with EPIC, as a preferred vendor for ArthramidVet for use in horses and dogs.

ArthramidVet is a 2.5% injectable polyacrylamide gel (iPAAG), used to manage lameness associated with all stages of equine and canine osteoarthritis. The contract price for ArthramidVet will be \$184.24/unit (SKU 50022). EPIC agrees to offer this contract price only to its active members of the co-op.

This agreement and pricing structure will be in effect for 2024 with listed pricing structure effective February 1, 2024. This agreement will be eligible for annual review and renewal.
